

# BLOMFIELD

## Quality Policy

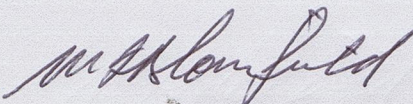

Blomfield activities centre on civil construction services, plant hire, landscaping and concrete plant supplies.

The company is dedicated to supplying and maintaining high quality products and services using goals and objectives in line with our management systems

- Implement and maintain our Quality Management System to ISO 9001:2008 accreditation
- Ensure staff have the necessary skills, competencies, licenses and training for them to perform their assigned tasks
- To comply with the applicable statutory, regulatory and industry requirements
- Set targets and continually audit and review policies, procedures and documents
- To review our goals and objectives

To ensure the achievement of these, it is essential that all personnel work within the framework for quality which is outlined in this policy and their normal day to day work procedures.

It shall be the responsibility of management and staff within Blomfield to comply with goals and objectives to produce high quality workmanship.

Michael Blomfield  
Managing Director
