

BLOMFIELD

Workplace Health and Safety Policy

Blomfield is committed to providing a safe and healthy working environment for our employees and for contractors and visitors to the workplace. Adopting and promoting the provisions of relevant legislation, Codes and Standards, together with significant importance placed in the areas of hazard / risk management and injury prevention strategies, will achieve this.

We understand that creating and maintaining a safe and healthy working environment is a major part of our overall responsibilities, and that all employees with management or supervisory responsibilities are accountable for the health and safety of employees and visitors in their respective work areas.

In conjunction with this Policy, individual Safe Work Procedures, Risk Assessments and Work Method Statements have been prepared in consultation with relevant employees and issued.

We expect all employees, contractors and visitors to our workplaces to follow safe work practices as prescribed under the legislation and in our Policies and Safe Work Procedures, and that they make every effort to eliminate work related injuries and illness to themselves and others.

We will provide adequate resources to manage and maintain health and safety together with regular training on workplace health and safety, and expect our employees to attend.

We constantly strive for continual improvement to our WH&S System, which has been based upon AS/NZ 4801, and within our WH&S Management Plan have established measurable objectives and targets.

Workplace Health and Safety is important and we all have an obligation to ensure that we have a safe and healthy working environment and we encourage you to actively participate so that we may achieve this goal.

Michael Blomfield
Managing Director
